

## **2016 Presidential election**

**The real issue is that, in area after area,  
raising the minimum wage  
to 15 bucks an hour,  
the American people want it.  
Rebuilding our crumbling infrastructure,  
creating 13 million jobs,  
the American people want it.  
The pay equity for women,  
the American people want it.  
Demanding that the wealthy start  
paying their fair share of taxes,  
the American people want it.**
