

## **2020 Presidential election**

**The Committee's principal concern was that the President actually intended to participate personally in the January 6th efforts at the Capitol, leading the attempt to overturn the election either from inside the House Chamber, from a stage outside the Capitol, or otherwise.**

**The Committee regarded these facts as important because they are relevant to President Trump's intent on January 6th. There is no question from all the evidence assembled that President Trump *did have that intent.***
