

## **2020 Presidential election**

**It may be beyond  
the imagination of Americans to  
accept that their system is in jeopardy.  
Countries with radically different histories,  
such as South Korea, find it much easier.  
But the facts are staring the US in the face.  
What happened on January 6  
has so far gone unpunished,  
which means it is likely to be tried again.**
