

Asslickers

It was easier to go along with the ride. John Kelly, at least for a while, and Mick Mulvaney, without any reservations at all, would behave the same way [kowtowing like Trump's siblings throughout his life] — until they were ousted for not being sufficiently “loyal.”

That's how it always works
with sycophants.

First they remain silent no matter what outrages are committed; then they make themselves complicit by not acting. Ultimately, they find they are expendable when Donald needs a scapegoat.
