

Books

From 2007 to 2017

**American authors' median income
dropped by more than half to \$6,080.
That's in the world's biggest book market,
includes earnings from sidelines such as
speaking, and excludes the one in four
published writers whose total
book income in 2017 was \$0.**

**Simon Kuper,
Financial Times, September 9, 2021**
