

Facebook

**But Facebook is also,
effectively, a hostile foreign power.**

**This is plain to see in its single-minded
focus on its own expansion; its immunity
to any sense of civic obligation; its record
of facilitating the undermining of elections;
its antipathy toward the free press;
its rulers' callousness and hubris;
and its indifference to
the endurance of American democracy.**

**Adrienne LaFrance,
The Atlantic, September 2021**
