

Fascists say

**Florida
will not assist in an extradition request
given the questionable circumstances
at issue with this Soros-backed
Manhattan prosecutor
and his political agenda.**

**Ron DeSantis, 6:55 PM – Mar 30, 2023,
pimping for Trump's base in a performative
burst of inequality-before-the-law, anti-Semitic
[note the coded "Soros-backed"] Fascist rhetoric
made particularly execrable by the fact that
Trump himself announced he would travel
from Florida to New York to be arrested and
arraigned on criminal charges related to
paying hush money to Stormy Daniels
prior to the 2015 presidential election**
