

Hucksters

First Lady Melania Trump seems to have unintentionally tipped her hand on how she plans on using her tenure as First Lady – namely, to cash in.

Salon.com, February 7, 2017, reporting on the \$150 million lawsuit she filed against a British newspaper for reporting and retracting allegations about canoodling in Slovenia before her marriage, which reports, she says, caused her to lose a “unique, once-in-a-lifetime opportunity” to make \$150 million selling branded “apparel, accessories, shoes, jewellery, cosmetics, hair care, skin care, and fragrance” products
