

Ideas

**Trump told the lawmakers
they could talk about
the solar-paneled wall
as long as they said it was his idea.**

**Axios, June 6, 2017,
reporting on Trump's White House meeting
with Republican Congressional leaders,
during which he described his vision
of the Mexican border wall as being
40 to 50 feet high and covered
in solar panels so they'd be
"beautiful structures"**

**[A solar-panel-covered wall was among
the designs proposed when the U.S.
requested designs for the wall]**
