

Immigration

**It's a cliché that the US is a nation
of immigrants — and a cliché that,
for the past few years,
has been just plain wrong.**

**This nation of 330mn people managed to
settle a meagre 11,000 refugees
in the fiscal year that ended
in September 2021,
the lowest number in more than 40 years.**

**Patti Waldmeir,
Financial Times, April 2, 2022**
