

Impeachment

**These are the stakes of
President Trump's impeachment.**

**Like President Nixon, he abused the public
trust by wielding the powers of the presi-
dency to serve himself instead of the public.
But unlike President Nixon, he didn't do it
solely with the assistance of Americans;
he did it by seeking help from
a foreign power.**

**That makes
President Trump's high crimes even worse.
And if we fail to hold him accountable,
as our founders feared, I believe that
could very well mark the end of
the American experiment.**
