

School spending

Right now, we collectively spend about 1,000 times more per student on science, technology, engineering and math education than we do on history and civics. Where civics education is taught, it is often hampered by a lack of consensus about what to teach and how.

Wall Street Journal op-ed piece, 2021/03/01, signed by six former U.S. education secretaries: Lamar Alexander, Arne Duncan, John King, Rod Paige, Richard Riley, Margaret Spellings
