I'm the only one  
to separate Siamese twins,  
the only one to operate on babies while  
they were still in their mother's womb,  
the only one to take out half a brain,  
although you would think,  
if you go to Washington,  
that someone had beat me to it.

**Ben Carson,  
retired neurosurgeon,  
Republican presidential debate,  
August 5, 2015**
