**I like the challenge [of dealmaking]  
and tell the story of the coal miner's son.  
The coal miner gets black-lung disease,  
his son gets it, then his son.  
If I had been the son of a coal miner,  
I would have left the damn mines.  
But most people don't have the  
imagination — or whatever —  
to leave their mine.  
They don't have "it."**
