

Trumpists say

**God loves it when I try to talk
in my spirit language.**

**He thinks it's so cute that
the only person in the world
who can understand me is him.**

**When I'm praying in tongues,
my brain oftentimes is active.**

**That's just because I've got this
high-powered brain that never stops and
drives me crazy, and so what I'll often do
is I will send it on another assignment.**

**Kelly Tshibaka,
Trump-endorsed candidate to become
a new Republican Senator from Alaska in 2022
to replace Lisa Murkowski, who's too sane**
