**I'm the least racist person that many of you have ever met by the way. I have no bigotry.**

**I just try to see the world for where it is. I have no, uh, sort of army to hit back at them. Right?**

**Cuz I'm the young guy in the room and they're not even going after any other young people. The other young people in the White House are total hoes and thots like Cassidy Hutchinson and this Alyssa Farah [Griffin] hoebag who are just terrible. I mean they have no clue what they're saying. They're Bolsheviks so they probably do hate the American Founders and most white people in general.**
