

Trumpists say

**I think he has changed a lot
of his life once he was elected.**

**I think Trump is a much better person
today than he was then.**

**I think most people in this country
realize that Donald Trump
comes from a different world.**

**He comes from New York City,
he comes from a slam-bang,
difficult world.**

**It is amazing he is as good as he is.
If anything, you have to give him
plaudits for the way he has run
the country.**
