

## **Trumpists say**

**Intriguingly,  
Mr. [Bill] Taylor says in his statement  
that many people in the administration  
opposed the [Rudy] Giuliani effort,  
including some in senior positions  
at the White House.**

**This matters because it may turn out that  
while Mr. Trump wanted a quid-pro-quo  
policy ultimatum toward Ukraine,  
he was too inept to execute it.  
Impeachment for incompetence would  
disqualify most of the government,  
and most presidents at some point  
or another in office.**
