

Trumpists say

There should not be involvement from the federal government in how states decide their abortion decisions.

As a physician, I've been in the room when there's some difficult conversations happening. I don't want the federal government involved with that at all. I want women, doctors, local political leaders, letting the democracy that's always allowed our nation to thrive to put the best ideas forward so states can decide for themselves.

Mehmet Oz

[imaging states are the best protectors of rights and "local political leaders" are impartial]
