

Trumpists say

**We control the budget,
we control the power of the purse.**

**If Speaker Johnson supports Trump like he
claims, he should stop the special counsel
Jack Smith and he should be using the
power of the purse to hold New York
accountable for the sham convictions
against President Trump.**

**The entire thing is political, it's outrageous,
and our country has completely
turned a corner.**

**Marjorie Taylor Greene,
calling for an end to investigations of Trump and
for withholding federal funds for social pograms
in state whose citizens uphold the rule of law
in the face of threats to themselves and families**
