

## **Trumpists say**

**Will Republicans use power?**

**This is my question.**

**Will they wield power,  
because if you have a single takeaway  
as the result stands right now, it is that  
what the Republican electorate wants  
is a strong executive who utilizes  
and wields power over his enemies  
and then destroys his enemies and  
makes them grovel — makes molten,  
salty tears flow from their faces,  
as Ron DeSantis did with Disney.**

**Benny Johnson,  
the "Godfather of Conservative internet,"  
Nov. 8, 2022, when Republicans won a slim  
majority in the House in the midterm elections**
