

Trumpists say

You put very sexy things like abortion and marijuana on the ballot, and a lot of young people come out and vote. It was a secret sauce for disaster in Ohio. I don't know what they were thinking. Thank goodness that most of the states in this country don't allow you to put everything on the ballot. because democracies are not the way to run a country.

who attempted to ban abortion and prevent
decriminalizing marijuana were defeated
in the 2023 off-year elections**
