

Ukraine

**This is not merely
Russia's invasion of Ukraine.
It is the beginning of a war against Europe.
A war against the unity of Europe,
against elementary human rights in Europe,
against the peaceful coexistence of
the countries of Europe — and against
the fact that European states refuse to
settle border disputes by force.**

**Volodymyr Zelensky, February 25, 2022,
the day after Russia's invasion began**
