

# Ukraine

**This year can be called a year of losses  
for Ukraine, for the whole of Europe  
and the whole world.**

**But it's wrong.**

**We shouldn't say that.**

**We haven't lost anything.**

**It was taken from us.**

**Ukraine did not lose its sons and daughters  
– they were taken away by murderers.**

**We did not lose our lands  
– they were occupied by invaders.**

**The world did not lose peace  
– Russia destroyed it.**

**...**

**It's impossible to forget and it's impossible  
to forgive, but it's possible to win.**

**Volodymyr Zelensky, December 31, 2022**
