

Wannabe autocrats say

**We pledge to you that we will
root out the Communists, Marxists,
fascists, and the radical left thugs
that live like vermin within the confines
of our country, that lie and steal
and cheat on elections.**

**They'll do anything, whether legally
or illegally, to destroy America and to
destroy the American dream.**

**Donald Trump,
November 7, 2023,
calling the kettle black**
